A portrait of Julius Frack, a man with dark hair and a slight stubble, wearing a black leather jacket. He is looking directly at the camera with a slight smile, and his hands are outstretched towards the viewer. The background is a mix of white and gold geometric shapes. The word 'ILLUSION' is written in large, gold, brush-stroke style letters across his chest.

# ILLUSION

In his illusion shows Julius Frack features breathtaking acts and spectacular effects. Julius Frack makes human beings appear from thin air, disappear and float - and even walks through a living body.

He produces snow from his hands, makes a spectator invisible and he frees himself from the "box of death" before it explodes.

With Julius you will witness cars, helicopters, entire buses or other large objects appear out of nowhere.

He grows oranges on an orange tree, predicts the audience's thoughts and makes lights levitate.

Julius Frack is successful as an illusionist on an international scale. He has amazed people in over 30 countries, presidents, royalties and CEOs. He was a guest at international corporate events, VIP galas and TV shows all over the world and brings his international experience and know-how to the success of your event.

The international prizes and awards as **World Champion of Grand Illusion**, **Magician of the Year** and **Monte Carlo Magic Stars** are an incentive and challenge for Julius Frack and his team to offer you a perfect show experience that will be remembered by you and your guests forever.
